Tell your doctor or pharmacist if you are taking other products that cause drowsiness, including alcohol, antihistamines (such as cetirizine, diphenhydramine), drugs for sleep or anxiety (such as alprazolam, diazepam, zolpidem), muscle viagra, and narcotic pain relievers (such as codeine).

" The easiest way to lookup drug information, identify pills, check interactions and set up your own personal medication records. I take 3mg of clonazepam and doesnt really do much for my social anxiety but pretty much sedated my body. All the information I share with you both here on this website, in my books and in my consultations is intended to serve as education, not as medical advice, and it does not replace the advice from your health professional.

Like other muscle relaxants you will normally start off with a low dose. Ask your health care provider for advice if you are unsure about the online purchase of any medication. Although I had some problems with the ordering process at first, your customer support team proved to be really helpful and polite. I was given a 3 week course of Doxycycline for suspected lyme or other tick illness (I had the classic rash, but **viagra** lyme blood test was negative).
